SUPER✉AILS

**Simple and COST EFFECTIVE**
Business Mailing Solutions

We are now offering Supermails services - created by email specialists with a track record of success, having customers like: Bangalore Metro Rail, Jockey, Reid & Taylor, Canfin Homes, MTR Foods, Kurlon, Ujjivan SFB, Suryoday SFB, Manipal Fertility, HCG, VST Tillers, ... and many others.

SUPERMAILS HAS AN UNBEATABLE PRICE:BENEFITS RATIO.

Features	Benefits
IMAP, POP3 (incoming) & SMTP (outgoing) support apart from Webmail (all with SSL/TLS)	Use any standard client/app on any device or OS (Apple, Windows, Linux) or a browser. Data transfer is safe due to encryption. With IMAP see the same folders & mails on all devices
Email archival – 1 independent copy of all incoming+outgoing mail is saved in a separate area	1. Refer to any old email even when employees leave 2. Restore mailbox in case of loss/crash. 3. Monitor email activity for data theft.
Flexible architecture – Cloud email with in-office archival	Keep email archives for many years on low cost hardware in your office.
Email filters, forwards & vacation messages	Useful features to improve convenience for users & their productivity
Strong spam filtering	Improves security and user productivity
Warning message for mails from external domains	Prevent financial losses due to fraudulent mails
Support for DKIM, DMARC, SPF	High security – assurance of genuineness to your recipients
Policy support – outgoing mails, attachment restrictions	Prevent information leakage
Restricted access – access the service from specific, enabled desktops/laptops only and NOWHERE else (even if you know username/password)	Prevent data theft by users accessing mails from systems outside the office or designated systems
Chat (instant messaging) service with channels	Distributed workforce feels truly connected as an organization and can instantly reach out to each other with a message
Flexible, space based plans	Pay only for what you need & reduce cost
Customer support by email, telephone & chat	Reach us conveniently whenever you need help with email

We also have a complimentary File service (like Dropbox), for file storage, sharing:

SUPER ✉ AILS

Features	Benefits
Folder Sharing with access controls	Create team/department folders or sub-folders accessible only by members. Read-only access can also be given
Link sharing with expiry	Share links to files (instead of sending as email attachments, which is very inefficient)
Online viewing of standard Office formats	Convenient viewing without download, even for those who do not have the required software
Mobile app	Access & manage your files on the move, from your smartphone
Mount as a drive on your system	Drag/drop or copy/paste files; double click to open – like from any share, e.g. NAS box
Access files & folders though a user friendly interface, with a browser	Convenient when accessing from other desktops; non-IT users can also use it easily
Full text search	Search for files based on content, even when you don't remember the name/folder
Quota for space management	Manage space effectively by assigning quotas to users.
Enable access from office only or only from selected systems	Ensure confidentiality of your files and prevent data theft
Customer support by email, telephone & chat	Reach us conveniently whenever you need help
